BRAIN FAG AND POOR EYES

Many men and women wonder why they quickly tire at work, while other people enjoy the vigor of early morning all day.

Eyestrains, poor eyes, is the answer Faulty eyesight unbalances the nervous system. Physical and mental fatigue quickly result.

Yet seven out of every ten people in this country are unnecessarily subjecting themselves to the ill effects of bad eyesight, when good glasses accurately

fitted would give immediate relief. A consultation with an Optometrist may work a ramarkable improvement in your health and disposition.
